Vintage Score best drinking

Muscat

R

2017: gently tinged with classic grapey aromatics and viscous body, totally dry and satisfying, with honest enjoyment and good value.

2017 87 2017-2025

Unwooded Chardonnay

R

2017: lowish alcohol (13%) and a touch subdued, but revealing rich stone fruits with minerality and lees depths, very nice.

2017 89 2017-2026

2018: clean, expressive and fruit driven, with perfumed citrus and lime notes, lees richness, and lovely focus.

2018 90 2018-2027

2019: lively and fresh with pristine fruit and good structure, lots of yellow fruit edge with succulent flavours.

2019 90 2020-2028

2022: quite restrained and nicely balanced, with dull steely peach notes, soft fruited and viscous, quietly classy.

2022 90 2022-2029

Chardonnay/Pinot Noir

R

2015: a fleshy wine, not too crisp, with overripe peach and melon gentle fruit, comforting and with tannin texture.

2015 86 2015-2024

2017: straw hue, rich, layered creamy green and exotic fruit punch, textured and tangy and lush.

2017 90 2018-2027

2018: pale gold with a shy nose in youth, clean and precise mixed fruits with good balance and the promise of filling-out in time.	2018	89	2019-2028
2019: fresh and agile and just the slightest tinge, good acidity on feint summer red berries, perfect chilled drinking.	2019	88	2019-2028
2020: feels richer, more viscous than its 12.5% alcohol suggests, with tangerine, peaches and cream, the best yet, delicious.	2020	91	2021-2029
2022: faintly coloured, with a fruity, summer stone fruit nose then red berry bite, very crisp but less memorable than the '20.	2022	88	2022-2028

Cabernet Sauvignon / Merlot

R

2016: nicely restrained and with some elegance. Hint of green herbal notes on seductive fruit.	2016	87	2016-2026
2017: a touch too feral, almost hot ferment burnt, with liquorice and rustic fruit density, big and bold but not for contemplation. Improved at age two.	2017	87	2017-2025
2018: muted purple hue, blue fruit nose, sweet vanilla hint, vibrant primary fruit punch, supple blackcurrant liqueur effect throughout.	2018	90	2018-2028
